Post-secondary students in the State of Mississippi often choose to attend a Mississippi community college (MS CC) and earn an associate degree before transferring to The University of Southern Mississippi to complete their bachelor's degree. To make this transition as smooth as possible and to ensure no credits are lost, we have created this transfer guide. In most, but not all, cases, students may complete a bachelor's degree in what we refer to as a '2+2' format:

2 years at a MS CC for an associate degree, which includes general education coursework
 +
 2 years at USM to complete the bachelor's degree

Please use the key below to determine which courses you must, should, or could take at a Mississippi community college before transferring to Southern Miss.

KEY

 MUST	Students who do not complete these requirements at a MS CC cannot complete their bachelor's degree in the 2+2 format.
 SHOULD	Students should complete these requirements at a MS CC in order to have the smoothest transition to Southern Miss. It may still be possible to complete a bachelor's degree in the 2+2 format without taking these courses, but it will be challenging.
 COULD	Students could complete these requirements at a MS CC if they desire. Not taking these courses prior to transferring will not affect a student's ability to complete their bachelor's degree in the 2+2 format.
 CALCULUS READINESS	Calculus is required on this degree plan. Students should arrive at Southern Miss ready to take Calculus I, which means they must have completed Trigonometry or have a Math ACT subscore ≥ 26 . Students may complete Calculus I prior to transferring if they desire.

NOTE: *This document is intended as a guide; it does not guarantee graduation in the 2+2 format. Degree requirements are subject to change. Please consult the school of your desired major for up-to-date requirements.*

Additional majors are available from the other Southern Miss colleges.

CRIMINAL JUSTICE

CRIMINAL JUSTICE, CRIMINAL JUSTICE (JUVENILE JUSTICE)

PROGRAM INFO

Our programs equip students with the skills to excel within the modern justice system and utilize the latest forensic science technology. Our criminal justice degree programs foster an understanding of policy, criminal law and procedure, crime theories, juvenile justice, and ethics and organization management. We also offer a minor in security studies for students pursuing careers in public or private security.

CAREER OUTLOOK

Our students are prepared to pursue careers in law enforcement, homeland security, law, court administration, corrections, and juvenile justice. Graduates also possess the necessary foundation for graduate or law school.

KNOWLEDGE & SKILLS

Our faculty are prominent scholars in their respective fields. Through lecture, online, and seminar courses, they cultivate knowledge, understanding, and analytical skills in our students. Faculty serve as advisors and mentors for students to better assist them with career planning and degree progress.

The key skills you will learn include critical thinking, problem solving, communication, research and data analysis, ethics and professionalism, and interpersonal skills.

RESEARCH AT USM

While undergraduate students are not required to engage in active research endeavors, they are able to do so through various paths:

- Elective course credits for independent research in special problems
- Working with researchers in the MS Statistical Analysis Center
- Thesis development for Honors College students

OPPORTUNITIES

SCHOLARSHIPS

Due to generous donations by our alumni and other contributors, we can make financial awards annually to our most competitive undergraduate students. These awards assist our students financially and allow us to acknowledge the hard work of our best and brightest.

INTERNSHIPS

Students earn academic credit for approved internship experiences and get valuable experience and career insight. Possible placements include:

- Federal, state, and local law enforcement agencies
- United States Probation and Parole
- Community corrections and rehabilitation agencies
- Juvenile justice agencies
- Prosecutor and defense attorney offices
- Judicial and court administration

CRIMINAL JUSTICE BA AND 2+2 CRIMINAL JUSTICE (JUVENILE JUSTICE) BA

Complete all requirements for a MS community college associate degree, including general education coursework, and...

SHOULD Take the CJ Intro course, 6 hours of world language (Spanish recommended), and select a social/behavioral science elective from the list below. May not duplicate general education requirements.
Explore minor options; minor required for this major.

NOTE Do not "load up" on CJ courses; many do not fulfill USM requirements and transfer of CJ credits is limited to 15 hours.
Transferable course options below, please contact the school with questions.

FORENSIC SCIENCE

ANTHROPOLOGY, BIOLOGICAL SCIENCES, CHEMISTRY & BIOCHEMISTRY, CRIMINAL JUSTICE

PROGRAM INFO

Students complete coursework in areas of forensic science including drug identification, forensic DNA analysis, fingerprint analysis, crime scene documentation, arson and explosives investigation, and firearms identification, among others. Students are also able to meet and interact with forensic science practitioners via our seminar and internship courses. These practitioners share their work experience and expertise to prepare students to be successful forensic scientists.

CAREER OUTLOOK

Our program prepares students for both field work and the laboratory. Possible careers include crime scene investigator, DNA analyst, toxicologist, drug chemist, document examiner, firearms examiner, forensic anthropologist, coroner, investigator, detective, forensic photographer, and many others.

Our alumni hold positions in various federal agencies, including the FBI, DEA, CIA, Secret Service, Department of Homeland Security, Defense Forensic Science Center, and a host of state and local government laboratories, private laboratories, and law enforcement agencies across the nation. Many of our students also pursue graduate studies.

RESEARCH AT USM

Students engage in active research through elective course credits for independent research in special problems, and thesis development for Honors College students.

KNOWLEDGE & SKILLS

Forensic science students master:

- Scientific principles
- Crime scene investigation
- Forensic laboratory analysis
- Legal procedures
- Critical thinking
- Communication
- Ethics

OPPORTUNITIES

SCHOLARSHIPS

Several scholarships are available for students via the university GO system. A scholarship committee awards scholarships annually.

INTERNSHIPS

Our students gain valuable hands-on experience by completing an internship or field study in forensic science.

Possible internship placements include:

- Federal, state, and local law enforcement agencies
- Federal, state, and local crime laboratories
- Medical examiner's offices
- Coroner's offices
- Prosecutor and defense attorney offices
