Post-secondary students in the State of Mississippi often choose to attend a Mississippi community college (MS CC) and earn an associate degree before transferring to The University of Southern Mississippi to complete their bachelor's degree. To make this transition as smooth as possible and to ensure no credits are lost, we have created this transfer guide. In most, but not all, cases, students may complete a bachelor's degree in what we refer to as a '2+2' format:

2 years at a MS CC for an associate degree, which includes general education coursework  
 +  
 2 years at USM to complete the bachelor's degree

Please use the key below to determine which courses you must, should, or could take at a Mississippi community college before transferring to Southern Miss.

**KEY**

<b>MUST</b>	Students who do not complete these requirements at a MS CC cannot complete their bachelor's degree in the 2+2 format.
<b>SHOULD</b>	Students should complete these requirements at a MS CC in order to have the smoothest transition to Southern Miss. It may still be possible to complete a bachelor's degree in the 2+2 format without taking these courses, but it will be challenging.
<b>COULD</b>	Students could complete these requirements at a MS CC if they desire. Not taking these courses prior to transferring will not affect a student's ability to complete their bachelor's degree in the 2+2 format.
<b>CALCULUS READINESS</b>	Calculus is required on this degree plan. Students should arrive at Southern Miss ready to take Calculus I, which means they must have completed Trigonometry or have a Math ACT subscore $\geq 26$ . Students may complete Calculus I prior to transferring if they desire.

**NOTE:** *This document is intended as a guide; it does not guarantee graduation in the 2+2 format. Degree requirements are subject to change. Please consult the school of your desired major for up-to-date requirements.*

Additional majors are available from the other Southern Miss colleges.

# ANTHROPOLOGY

## PROGRAM INFO

Anthropology is the study of what makes us human. Anthropologists integrate perspectives from the social sciences, natural sciences, and humanities to understand the diverse ways in which people have lived, died, and solved the common problems of human existence from the ancient past to the present day. Students complete courses in cultural and biological anthropology, archaeology, and anthropological linguistics.

Community College graduates, transfer students, or students who discover anthropology late in their time at USM can meet the requirements by following an accelerated two-year plan.

## CAREER OUTLOOK

A variety of career paths are open to anthropologists including academia, cultural resource management, industrial archaeology, forensics, human resources, museums, non-profits, public archaeology, and medical research just to name a few. Anthropology also prepares students to pursue advanced degrees in several related fields—archaeology, bioarcheology, biological anthropology, criminal justice, cultural anthropology, law, medicine, museum studies, and linguistic anthropology.

## RESEARCH AT USM

Students earn an invitation to participate in active research by getting to know the anthropology faculty and expressing their interests. Faculty welcome students during office hours and encourage them to join the Southern Miss Anthropology Society and to volunteer to help with graduate research.

 601.266.4964  [usmssgs@usm.edu](mailto:usmssgs@usm.edu)

 [usm.edu/ssgs](http://usm.edu/ssgs)

 [@usmartsandsciences](https://www.instagram.com/usmartsandsciences)

## KNOWLEDGE & SKILLS

Anthropology students learn to think critically, communicate effectively, and approach questions holistically, among other beneficial skills that are applicable beyond an academic setting. As an anthropology major, students learn to answer questions like:

- How can you know where someone grew up by looking at teeth?
- How did Mississippians live ten thousand years ago?
- How do words shape how we understand the world?
- How did we evolve to develop obesity?
- How does studying non-human primates help us understand ourselves?
- Why are initiation rituals for men often more strenuous than for women?
- How can we identify and resolve cultural misunderstandings?

## INTERNSHIPS

Students earn course credit for internships, whether they organize it on their own or find one through the program. Students have had internships at Camp Shelby, law enforcement agencies, and our labs. We encourage students to explore other possibilities tailored to specific career interests and will provide valuable experience for employment after graduation.

# ANTHROPOLOGY BA 2+2

Complete all requirements for a MS community college associate degree, including general education coursework, and...

-  **SHOULD** Take these introductory anthropology courses. Explore minor options; minor required for this major.
-  **COULD** Complete the fourth semester of a world language. Take 1 humanities elective. May not duplicate general education requirements. Take 2 social science electives. May duplicate general education requirements.

# APPLIED ECONOMICS

## PROGRAM INFO

An economics degree teaches analytical skills that are highly sought after by companies from Wall Street to Silicon Valley. The economics program trains students to think critically by applying analytical models to a variety of human phenomena and economic and policy issues. USM Economics students gain valuable experience through research opportunities and internships using statistical analysis to study issues and develop policy-relevant solutions.

Our program gives students knowledge of economic theories and models and shows them how to use this knowledge to create solutions to complex real-world problems. Our students gain analytical skills to conduct detailed research on relevant policy and industry and individual issues.

Most upper-level economics classes have fewer than 20 students, giving students the individual attention needed to fully develop research and analytical skills. Students regularly assist faculty on their research projects, which gives them plenty of practical experience. Our faculty also connect students to internships with area employers for real-world experience.

## INTERNSHIPS

Students regularly receive internship credit for their economics major while learning practical skills by working with data analysts in regional, national, and international companies.

## KNOWLEDGE & SKILLS

Economics students:

- Develop a critical lens for creating solutions to complex decision-making problems
- Write cogently about social, political, and economic issues
- Apply statistical methods to behavioral, financial, and social data
- Develop policy solutions to complex problems
- Research trends, analyze patterns, and develop predictions for changes in the financial, corporate, and governmental sectors

## CAREER OUTLOOK

Career opportunities are vast with a degree in Economics. Our program has a 100% job placement rate. The average starting salary of graduates is \$49K.

Popular jobs include:

- Data Analyst
- Data Scientist
- Market Research Analyst
- Business Analyst
- Consultant
- Financial Risk Analyst
- Banking and Accountancy Positions

You can work as a professional economist in government institutions such as the U.S. Census Bureau, U.S. Treasury, local and state governments, for private companies like Google, Facebook, and General Motors, or at any company where analysis/research is required.

# LEGAL STUDIES

LEGAL STUDIES (PRE-LAW), LEGAL STUDIES (PARALEGAL)

## PROGRAM INFO

The Legal Studies program offers a Bachelor of Arts degree with the choice of two emphasis areas: Paralegal or Pre-Law.

The Paralegal emphasis is the oldest American Bar Association-approved paralegal education program in Mississippi. This program prepares students to work as paralegals in private law firms, government offices, banks, and corporations. For nearly fifty years, the paralegal program has prepared thousands of students for success in one of the fastest growing career opportunities in the US.

The Pre-Law emphasis is designed for students with a variety of career goals within the legal community. It is an ideal course of study for students who plan to attend law school after earning an undergraduate degree. Since most classes in the major are taught by experienced attorneys, students in the pre-law program attain an unmatched level of readiness for law school.

## INTERNSHIPS

Students may earn up to 9 credits from internship placements with local partners.

## CAREER OUTLOOK

Students completing the Paralegal emphasis will be prepared to enter the workforce as paralegals upon graduation.

The Pre-Law emphasis is a great foundation for any law-related graduate program. Students will be prepared to pursue the area of law of their choosing.

## KNOWLEDGE & SKILLS

Our faculty are practicing lawyers from various fields of practice who are as equally committed to teaching as they are in the legal profession. We are dedicated to helping students reach their academic and professional goals and to providing mentorship along the way.

As students search for ways to better prepare themselves for the rigors of further education, the pre-law track provides multiple levels of legal drafting, preparation in legal research, and a broad view of various substantive and philosophical areas of law. This lays a good foundation in critical thinking and practical skills necessary for aspiring lawyers or legal scholars.

# POLITICAL SCIENCE

BACHELOR OF ARTS, BACHELOR OF SCIENCE, PRE-LAW

## PROGRAM INFO

We examine the institutions of government, from the local to the international level, and how to influence them. We also delve into additional aspects of politics, including media, political parties, interest groups, religion, and the roles of women and minorities.

## CAREER OUTLOOK

Our graduates have a wide range of career opportunities, as the knowledge and skills they acquire are highly valued in many fields. Political science degree holders:

- Work for government agencies at the local, state, and federal level. They may work in policy analysis, research, or administrative roles.
- Go to law school and become attorneys, prosecutors, or judges.
- Work for nonprofit organizations that focus on advocacy, social justice, or public policy.
- Have excellent writing and analytical skills, making them ideal candidates for careers in journalism.
- Work in the private sector, using their analytical and research skills to inform business decisions and navigate complex regulatory environments.

The 2021 median annual wage for political scientists exceeded \$122,000!

## KNOWLEDGE & SKILLS

Political Science students learn to:

- Understand political processes in the United States and internationally
- Use data to understand election results; analyze political coalitions; and explain voter behavior.
- Understand how institutions and interest groups affect policymaking in areas like trade, health care, reproductive rights, and immigration.
- Read and develop legal and political arguments.

## OPPORTUNITIES

### SCHOLARSHIPS

There are currently 10 scholarships that university awards annually to current Political Science students.

### STUDY ABROAD

Crime and Politics in Ireland and Northern Ireland  
Human Rights and Social Justice in Italy  
Religion and Politics in Italy

### INTERNSHIPS

Since 2016, our students have secured 22 Washington Center internships.

# SOCIOLOGY

## PROGRAM INFO

Sociology is the study of society. Using social science methods, sociologists ask and answer questions about patterns, processes, and inequality across social groups and institutions and their effects on individual behavior. Through applied activities, projects, research, and individualized advisement, students who major in Sociology at USM develop transferable skills that help them translate their interests into identifiable career paths.

A Sociology major can typically be completed in 2-4 semesters at USM.

## CAREER OUTLOOK

A Sociology degree can prepare students for work in a variety of fields, including non-profits, social services, education, public policy, health, and business. Sociology can also prepare students for graduate and professional degrees in related fields like social work, counseling, or law.

## INTERNSHIPS

Students can earn course credit for internships, whether they organize it themselves or find one through the program. Students have had internships at mental health facilities, nonprofits, schools, and more. We encourage students to explore other possibilities related to their career interests; this will provide valuable experience and preparation for the labor market.

 [usm.edu/ssgs](http://usm.edu/ssgs)

 [@usmartsandsciences](https://www.instagram.com/usmartsandsciences)

## RESEARCH AT USM

We help students pursue their own unique research agendas and welcome undergraduate participation in faculty-led projects examining pressing topics like border and immigration issues, health and mental illness, deviance, social movements, sport and leisure, educational inequalities, social movements, families, and more. Our students regularly present their own collaborative research at conferences, including USM's Undergraduate Symposium and the Southern Sociological Society annual meeting.

The Sociology BS is available in both face-to-face and fully online formats.

## KNOWLEDGE & SKILLS

Through a combination of elective courses examining fundamental social institutions, social justice, and inequality—as well as core courses in scientific research methodology and theory—our students:

- Acquire critical thinking, writing, and oral communication skills applicable to high-demand careers in health, law, research, business, social services and counseling, education, criminal justice, and more.
- Create personalized research programs that speak to their unique interests and career goals.
- Develop qualitative and quantitative research skills used to identify social problems, analyze their causes, and create solutions.
- Appreciate the importance of diversity and work to foster inclusive environments.

# SOCIOLOGY BS 2+2

# WORLD LANGUAGES

FRENCH, SPANISH, TWO LANGUAGES (GERMAN), WORLD LANGUAGES EDUCATION

## PROGRAM INFO

We offer courses online and in-person in several languages and teacher licensure in Spanish or French. Students may complete a minor in 18 hours or a major in 30 hours. Students get to know world cultures by trying international cuisine and watching foreign films through our student clubs, L'Association Française and the Spanish Club. For Gulf Coast students we offer French and Spanish online and Spanish on campus. Reach out and let's discuss a bright future in languages.

Ours is the only nationally recognized teacher licensure program in Mississippi.

## CAREER OUTLOOK

Graduates with a degree in languages are found in many industries including:

- Hospitality
- Design
- Publishing
- Health services
- Government and diplomatic services

Common job titles:

- Interpreter/translator
- Social worker
- International travel coordinator
- National security officer
- Online content provider
- Teacher
- Study abroad coordinator

601.266.4964 [usmssgs@usm.edu](mailto:usmssgs@usm.edu)

[usm.edu/ssgs](http://usm.edu/ssgs)

[@usmartsandsciences](https://www.instagram.com/usmartsandsciences)

## RESEARCH AT USM

World languages faculty are dedicated teachers who develop students' cross-cultural sensitivity and awareness of cultural perspectives. We offer a range of courses including Latin American and Francophone culture and history, French and Spanish in the Americas, and topics such as conversation, phonetics, comics, cuisine, and cinema. We help students conduct and present their own research. Faculty research areas include online learning, sociolinguistics, teaching with technology, teacher education, and gender and writing.

## STUDY ABROAD

The world languages programs offer 8 different study abroad programs in France, Belgium, Germany, Spain, and Peru.

## KNOWLEDGE & SKILLS

By knowing a second language, graduates have a strong ability to strengthen relationships, solve problems creatively, and overcome many challenges. They have skills in understanding cross-cultural differences and solving problems that require intercultural and cross-cultural knowledge.

Business executives see second language skills and appreciation of cross-cultural difference as important for positions at all levels. Employers want skills that language majors cultivate which include critical thinking, analytical reasoning, and good written and oral communication.
