***Note**: The data above are reported in compliance with the accreditation guidelines of the American Psychological Association Commission on Accreditation. Each "year" represents a 10-year range of total graduates and those graduates who are licensed psychologist during that period. Data from each year are reported from August 16 – August 15. Graduates of the Psychology PhD (School Psychology) may become licensed psychologists, certified behavior analysts, or certified school psychologists. This data set includes all possible licensure/certification options for those completing the Psychology PhD (School Psychology) program.*

**This number is only from EPPP data; BCBA numbers are excluded.*
