**Bid # 22-17**  
**University of Southern Mississippi**  
**Dynamic Mechanical Analyzer**

## **1.0 Introduction**

The University of Southern Mississippi (USM) is looking to procure a Dynamic Mechanical Analyzer (DMA).

## **2.0 Specifications**

### **2.1 GENERAL PERFORMANCE SPECIFICATIONS**

The Dynamic Mechanical Analyzer must be able to measure the mechanical properties of materials as a function of time, temperature and frequency based on the requirements specified below.

### **2.2 REQUIREMENTS**

The following specifications are to ensure that the Differential Mechanical Analyzer will perform the tasks necessary to satisfy the project's objectives. Any deviation from the following specifications must be explained and justified.

Bidder shall meet or exceed the following specifications:

- Mechanical design must incorporate graphite air bearings for “frictionless” movement of the drive shaft and provide a full 25 mm travel without the use of steel springs, lead screws, and stepper motors.
- The DMA must use a linear optical encoder to provide 0.1 nanometer resolution over the full 25 mm drive shaft travel.
- The DMA must provide the following specifications:
  - Modulus Range from  $10^3$  to  $10^{12}$  Pascals
  - Frequency Range 0.001 to 200 Hz
  - Maximum Force 18 Newtons
  - Tan delta Range 0.0001 to 10
  - Tan delta Sensitivity 0.0001
  - Tan delta Resolution 0.00001
  - Dynamic sample deformation Range +/- 0.005 to 10,000 microns
- The DMA unit must have the ability to provide tension, compression, 3-point bend, dual cantilever, single cantilever, and shear sandwich modes of deformation.
- Incorporated sample length measurement in the tension mode and sample thickness measurement in compression mode must be automatic.
- The unit must be able to scan multiple frequencies while simultaneously ramping or

stepping the temperature.

- The unit must have the ability to perform temperature ramps, temperature sweeps, frequency sweeps, stress/strain sweeps, time sweeps, fatigue tests, stress/strain ramps, iso-stress studies, iso-strain studies, creep tests, and stress relaxation tests.
- The DMA must have a temperature range of -100 °C to 600 °C. Sub-ambient temperature control must be provided without the use of liquid nitrogen.
- DMA must include the ability to utilize LN2 as well as refrigerated cooling system.
- The DMA must contain a color touchscreen display for ease-of-operation.
- The DMA must incorporate automated clamp calibrations that are specific for each clamp type and can be performed when switching clamps. Clamp compliance must be calibrated for each clamp type during this calibration.
- The DMA must be capable of Direct Strain operation for closing the displacement control loop around motor position in real time without iterating around the oscillation force to achieve the programmed displacement.
- The DMA must be able to use DMA clamps previously acquired by the School of Polymer Science and Engineering for analysis in the new DMA.
- The instrument software should allow for unlimited installations within the University. This allows for data analysis by multiple users.
- The instrument software must be able to open historic USM data files for data comparison and automatic import of prior generations of data
- System must include a service plan for user assisted repairs that has the option to be renewed annually.

Additionally, the University will not be responsible for issues with attempted submissions of bids using the electronic method.

**Please note that emailed bids will not be accepted.**

Should a vendor choose to submit their response electronically, please follow the instructions below using the following website:

[https://www.ms.gov/dfa/contract\\_bid\\_search/Home/Sell](https://www.ms.gov/dfa/contract_bid_search/Home/Sell).

- 16.) Bidders must upon request of The University of Southern Mississippi furnish satisfactory evidence of their ability to furnish products or services in accordance with the terms and conditions of these specifications. Phone: (601) 266-4131

- 18.) All items must equal or exceed the specifications listed. The absence of detail specifications or the omission of detail description shall be recognized as meaning that only the best commercial practices are to prevail and that only first quality materials and workmanship are to be used.
- 19.) It is the intent of the specifications to obtain a product that will adequately meet the needs of the user while promoting the greatest extent of competition that is practicable. It is the responsibility of the prospective bidder to review the entire Invitation to Bid packet and to notify The University of Southern Mississippi if the Specifications, Instructions, General, or Special Conditions are formulated in a manner which would unnecessarily restrict competition.
- 20.) It shall be incumbent upon the bidders to understand the specifications. Any requests for clarifications shall be in writing and shall be submitted to our Procurement Services office at least five (5) days prior to the time and date set for the bid opening, unless otherwise noted in the bid or proposal specifications.

- 22.) Trade names, brand names, and/or manufacturer's information used in these specifications are for the purpose of establishing quality, unless otherwise noted. Bids on

products of other qualified manufacturers are acceptable, provided they are demonstrated as equal to those specified in construction, design and suitability. Please bid as specified or an approved equal.

- 23.) A copy of the manufacturer's standard guarantee/warranty shall accompany and become a part of this bid.
- 24.) There are no federal or state laws that prohibit bidders from submitting a bid lower than a price or bid given to the U.S. Government. Bidders may bid lower than U.S. Government contract price without any liability as The University of Southern Mississippi is exempt from the provisions of the Robinson-Patman Act and other related laws. In addition, the U.S. Government has no provisions in any of its purchasing arrangements with bidders whereby a lower price to The University of Southern Mississippi must automatically be given to the U.S. Government.

- 26.) All equipment bid shall be of current production and of the latest design and construction.
- 27.) Where all, or part(s), of the bid is requested on a unit price basis, both the unit prices and the extension of the unit prices constitute a basis of determining the lowest responsible and responsive bidder. In cases of error in the extension of price, the unit price will govern.
- 28.) All bidders/respondents are on notice that USM is a public agency of the State of Mississippi and is subject to the Mississippi Public Records Act, Miss. Code Ann. § 25-6-1, *et seq.* If a public records request is made for any information provided to the USM pursuant to this solicitation, USM shall promptly notify the Disclosing Party of such request. The Disclosing Party shall promptly institute appropriate legal proceedings to protect its information. No party to this agreement shall be liable to the other party for disclosures of information required by court order or required by law. For clarity, documents are not considered public record unless and until an award is made from such solicitation.
- 29.) Should the University of Southern Mississippi close due to inclement weather conditions, or any other unforeseen events on the bid opening date, sealed bids will open the following business day at the same time and location.

- 30.) As an alternative to traditional sealed bids in envelopes, the University of Southern Mississippi is capable of receiving electronic bid responses. While this option is available, it is not required and we ask that all potential respondents keep in mind that with any electronic system there could be delays or glitches with the submission process; therefore the University highly encourages traditional sealed bids which are either mailed or submitted in person. Should a vendor choose to submit their response electronically, please follow the instructions below using the following website:

With regard to construction bids, there is one additional step required during the bid submission process. Along with the bid response and other attachments, contractors will also need to attach their Certificate of Responsibility (COR), or a statement that the bid enclosed does not exceed Fifty Thousand Dollars (\$ 50,000.00). If their COR or such statement is not attached, the bid will be invalid and not considered.
