

THE UNIVERSITY OF SOUTHERN MISSISSIPPI

June 22nd, 2022

Addendum 1 to RFP 22-50 Advanced Metering Infrastructure & Energy Management Information System (AMI-EMIS). This addendum provides answers to questions submitted by prospective bidders by the specified deadline. The answers to the questions below are in red.

John Leggett, Buyer

1. Is there a list of vertical assets available upon which we can mount RF equipment?

There is not a full list available but there are several buildings that will be options for this purpose. Here are a few that we think would be good locations. We anticipate only to need a few spots to cover the campus. We should have plenty of locations that should work. We are open to which buildings are used. Typically, we do not mount anything on Historic Buildings.

Johnson Science Tower
Cook Library
McCain Library
Polymer Science
West Stadium

2. Will 3rd party polyphase meters be accepted?
Yes, that equipment would be acceptable.
